| UNITY & C# | AFTER EFFECTS | END-TO-END CREATION |
|---|---|---|
| 2 years of professional development | Video editing & motion design since 2019 | From concept to testing and final delivery |

## PROFILE

Multidisciplinary creator combining 2 years of professional Unity development with video editing and motion design experience since 2019. Builds interactive real-time applications in Unity and C#, and produces polished visual content in Adobe After Effects through animation, audio synchronization, color correction, visual storytelling, and final delivery. Seeking remote or part-time opportunities in Unity development, video editing, or motion design.

## EXPERIENCE

### Unity Developer — 2023 - 2025

**Israeli Air Force (IAF) | Israel**

- Built educational applications, technical training simulations, and serious games in Unity and C#.
- Developed application logic, UI systems, and interactive features for simulation-based learning.
- Integrated 2D/3D assets and animations into real-time Unity environments.
- Tested, debugged, and optimized applications for stability, usability, and performance.
- Collaborated with 4 programmers and approximately 10 animators.

### Video Editor & Motion Designer — 2019 - Present

**Freelance / Personal Projects**

- Created video edits and motion graphics in Adobe After Effects for social media and personal projects.
- Designed dynamic transitions, visual effects, typography animations, and cinematic sequences.
- Worked with audio synchronization, color correction, and visual storytelling techniques.
- Managed projects from concept to final export while maintaining high visual quality.
- Built a portfolio of creative edits demonstrating artistic and technical skills.

## SELECTED WORK

### JETS

**UNITY | C#**

Arcade-style aircraft game designed and programmed independently.

- Owned gameplay logic and implementation.
- Combined game design, programming, and testing.

### TECHNICAL TRAINING SIMULATOR

**UNITY | C#**

Interactive learning application for technical training.

- Developed UI, logic, and interactive features.
- Implemented educational interactions.

### MOTION DESIGN PORTFOLIO

**AFTER EFFECTS**

Creative edits and motion graphics for social and personal projects.

- Transitions, VFX, kinetic typography, and cinematic sequences.
- Audio sync, color correction, and final export.

## TECHNICAL TOOLKIT

**INTERACTIVE DEVELOPMENT**
Unity, C#, Unity UI
Application logic
Interactive systems
Real-time 3D applications

**VIDEO & MOTION**
Adobe After Effects
Video editing & motion design
Visual effects & typography animation
Audio sync & color correction

**PRODUCTION & QUALITY**
Debugging & testing
Performance optimization
Visual storytelling
Photoshop & Illustrator - Basic level
JavaScript, HTML & CSS

## CORE STRENGTHS

**CREATIVE DIRECTION**
Visual storytelling, typography animation, cinematic pacing, and polished visual presentation.

**TECHNICAL EXECUTION**
Application logic, UI systems, interactive features, debugging, testing, and optimization.

**PRODUCTION MINDSET**
Independent ownership, multidisciplinary collaboration, iteration, quality control, and final delivery.

## EDUCATION, TRAINING & LANGUAGES

**BRASSART Caen -** Preparatory Year - 3D Animation & Immersion pathway | Starting Sep 2026
**Handesaim High School, Herzliya -** Bagrut & Technical High School Diploma
**DELF B2 -** Attestation de réussite | 2026
**IDF Military Technical Training Program -** Front-end Web Development

### LANGUAGES

**Hebrew** Native
**English** Fluent (C2)
**French** B2 - DELF
**Japanese** Conversational (N3)

### AVAILABILITY

Remote or part-time roles in Unity development, video editing, or motion design.

**PORTFOLIO AVAILABLE UPON REQUEST**

**UNITY PROJECTS • VIDEO EDITS • MOTION GRAPHICS**
